

IN ONE EAR OUT THE OTHER

Jonathan Wade

South Block, 6th - 28th June

Closing event: Friday 28th June, 6-8pm

The work in the exhibition reflects on the influence of personal memories and important developmental moments. Recollections might be specific, vague or incorrect, but powerful and formative on expression and personality.

Jonathan Wade is attracted to situations and things that express ambiguity, transience and coincidence. Perception and interpretation are equally important.

Wade is fascinated by many materials but ceramic objects have been the centre of his practice for a long time.
